Sunchoke****	Tu	Tu	Tu	Tu													Tu	Tu	Tu	Tu	Tu	Tu
Turnip	S	S	S	S	S	S								S	S	S	S	S				

Key: S= seed; s= set – small bulbs less than 1" in diameter – sets will produce faster than seeds; T= transplant; Cl = clove; Cr = crown; R= root; Tu = tuber (P) = perennial vegetable, will produce for several years.

* Head lettuce (e.g. iceberg) tends not to grow well under Southern Nevada conditions

** Onions may be started from seeds or sets (see key for definition)

*** Seed potatoes are either small potatoes or potato pieces that have been cut so they include an "eye"

****Sunchoke, also known as Jerusalem artichokes, are an annual; however, they will continue to produce from any roots left in the ground.
